EDUCATION

09.2020 to 06.2025

Bachelor Degree: Computer Engineering

Middle East Technical University – Ankara, Türkiye

CGPA: 3.39

During my university education, I gained a strong foundation in various areas of computer science. I successfully completed courses in algorithms and data structures, operating systems, embedded systems development, data management and file structures, data communications and networking, computer graphics, image processing, deep learning, object-oriented programming, and cloud computing. These courses equipped me with both theoretical knowledge and hands-on experience, enhancing my problem-solving skills and enabling me to build solid expertise in software development.

09.2016 to 06.2020

High School

Körfez Fen Lisesi – Kocaeli, Türkiye

I graduated as the top student of my school and became 1488th in the university entrance exam of Türkiye (YKS).
